

ABOUT US

Bolt.Earth is a software-defined company that is the world's fastest-growing EV ecosystem enabler. We are on a mission to facilitate and accelerate emerging markets' progress towards cleaner mobility.

Our one-of-a-kind technology allows us to establish omnipresent charging infrastructure, remove barriers to EV adoption, and provide consumers with safe, smart, connected EV experiences. We cater to a wide variety of players in the EV Ecosystem like EV end-users, businesses, real estate operators, government entities, and many more. Our comprehensive ecosystem has a range of products and services aimed at enabling EV adoption, including our vast charging network, our Open EV Charging Platform partnership opportunity, and an operating system built to make EVs smarter.

Our numbers speak for themselves. We have 30,000+ charging points across 11,000+ cities in India, and 20,000+ OS-integrated vehicles on the road. Our network has dispensed 1,000MWh+ of energy, and equipped 150,000+ users with smart, safe, and simple engineered devices that cater to EV charging needs. In addition to fulfilling emerging EV demands, we are actively working towards positioning ourselves as a global player in the EV charging infrastructure and OS space. We are proud to provide end-to-end systems capable of supporting every aspect of the e-mobility experience worldwide.

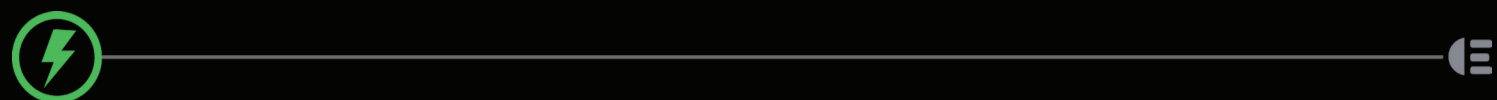

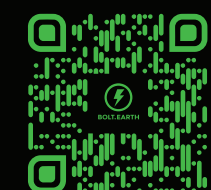

BOLT.EARTH EV CHARGING SOLUTIONS

World's Fastest Growing
EV Charging Network

*Compatible with all EVs

A SMART AND SAFE WAY TO CHARGE YOUR EV

SAFETY

Comes loaded with safest home charging solution for your EV

SURGE PROTECTION

AUTO CUT- OFF

POWER THEFT PROTECTION

TEMPERATURE SENSOR

All our products come equipped with advanced safety features and offer 360-degree protection to your EV

OPEN EV CHARGING PLATFORM

Inviting charging point manufacturers, fleet operators, and any other organisations to add their charging points on the Bolt.Earth EV Charging network.

- Unified Integration: Seamlessly combines various charging points & DC chargers of Bolt.Earth, any charging OEM or other charging networks for a robust infrastructure.
- Easy Accessibility: Direct access to EV charging via the Bolt.Earth EV charging app.
- Third-party Integration: Network available for integration into other apps.
- Demand and Supply: Boosts EV charging demand, benefiting charging hosts.

4G, BLE, WIFI, & Ethernet

4G & Ethernet Connectivity, BLE/Wifi compatibility

Smart Energy Monitoring

Monitor your energy consumption and track earnings using the Bolt.Earth App

BOLT.EARTH

GENERAL SPECIFICATIONS

Bolt.Earth LITE

Dimension	18cm * 19cm
Wall & pole mounting	Both
Energy Measurement	>99%
Number of output ports	1
Ingress protection	IP54
Material	Polycarbonate
Charger Type	AC Level 1 - 3.3 kW
Connector Type	3 Pin/Universal Socket
Connectivity	4G,Wifi,BLE
Compatible with	

Bolt.Earth PRO

Dimension	30cm * 17cm
Wall & pole mounting	Both
Energy Measurement	>99%
Number of output ports	1
Ingress protection	IP54
Material	Polycarbonate
Charger Type	AC Level 1 - 3.3 kW
Connector Type	3 Pin Socket
Connectivity	BLE
Compatible with	

Bolt.Earth Blaze AC

Dimension	400mm * 250mm * 169mm
Wall & pole mounting	Both
Energy Measurement	>99%
Number of output ports	1
Ingress protection	IP65
Material	Polycarbonate
Charger Type	AC Level 2 -7kW/11kW/22kW
Connector Type	IEC 62196 Type-2
Connectivity	BLE/Wifi/Ethernet as Standard (4G optional)
Compatible with	

Bolt.Earth Blaze DC

Dimension	400mm * 280mm * 170mm
Wall & pole mounting	Both
Energy Measurement	>99%
Number of output ports	1
Ingress protection	IP54
Material	CRCA Metal Enclosure
Charger Type	DC 3kW
Connector Type	IEC 62196 Type-6, IS17017-2-6, Compatible with any connector with CAN protocol
Connectivity	Wi-Fi/GSM
Compatible with	

BOLT.EARTH

Charger Management System (CMS)

- Common dashboard to analyze data.
- Based on availability and pricing.
- Subsidized pricing and charger availability for specific users.
- Customized reporting for admins and members.

EV Charging Application

- Easy charger discovery.
- In built payment and wallet
- Real time charge monitoring and analytics.
- Alerts based on charging events.
- Around the clock customer support.
