Smart Instrument Clusters

- ⚡ Diverse speedometer display options powered by Bolt.Earth OS.
- ⚡ Compatible with leading EV drive systems and quick integration platform for new ones.
- ⚡ Data storage for insights and analytics.
- ⚡ Smart features like anti-theft, fall detection, SOS, and safety alerts (overheating resilient, thermal runaway).
- ⚡ User-friendly display UI with multiple language support.
- ⚡ Integrated navigation options for the ultimate riding experience.
- ⚡ Get access to easy financing options for individuals, fleets and charging via Bolt.Earth OS.

EV Companion App

- ⚡ Real-time tracking and alerts on theft, geo-fence violations, and crashes.
- ⚡ Proactive vehicle health checks for increased EV uptime.
- ⚡ Detailed ride statistics and analytics for improved driving habits.
- ⚡ Manage EV software and get OTA updates seamlessly for Speedometer & EV drive system.
- ⚡ Integrated with peer-to-peer charging network - find nearby stations, check availability, and pay via our Bolt.Earth app.

Cloud Solutions and Connected EV Services

- ⚡ Access to financing & leasing options.
- ⚡ Fleet Management System for fleet operators to manage operations smoothly.
- ⚡ Leverage Over-the-air updates for your EV drive components to prevent vehicle recall due to software issues.
- ⚡ Vehicle Management System (VMS) for easy tracking of vehicles and customer feedback.

Leverage Bolt.Earth EV Charging Network

- ⚡ Enhance EV sales with access to Bolt.Earth's widespread charging network.
- ⚡ Empower EV owners to host charging points on Bolt.Earth and generate income.
- ⚡ Bundle EV and charging subscriptions to maximize customer benefits.
- ⚡ Join the largest P2P EV charging network and reduce the charging infrastructure setup cost for your EV buyers.

With Bolt.Earth, elevate your EV offerings by integrating with a robust, user-friendly charging ecosystem that adds immense value for your customers.

Bundle Third-Party Services with Bolt.Earth Integrations Platform

- ⚡ Integrate easily with third-party services like insurance, EV servicing, battery swapping etc.
- ⚡ Enable digital storefront for EVs and accessories and bundle financing options directly with the Bolt.Earth EV Companion app.
- ⚡ Enhance EV offerings with Bolt.Earth's smart home charging solutions, creating additional revenue avenues for your network.

Bolt.Earth not only amplifies your EV ecosystem but also ensures holistic solutions for your dealers, distributors, and end-users.

EV Fleet Management

- ⚡ Enable live GPS tracking, real-time alerts, and health diagnostics.
- ⚡ Access detailed performance reports for in-depth fleet analysis.
- ⚡ Monitor battery performance, mileage, and maintenance needs.
- ⚡ Set geographic boundaries with alerts for vehicle entry and exit.
- ⚡ Track driver behavior, including speeding, harsh braking, and idling.
- ⚡ Streamline it all through a mobile app for drivers and fleet managers.

Monitor your fleet wherever you are. Ensure up-to-date diagnostics and upgrades.

BOLT.EARTH

ABOUT US

Bolt.Earth is a software-defined company that is the world's fastest-growing EV ecosystem enabler. We are on a mission to facilitate and accelerate emerging markets' progress towards cleaner mobility.

Our one-of-a-kind technology allows us to establish omnipresent charging infrastructure, remove barriers to EV adoption, and provide consumers with safe, smart, connected EV experiences. We cater to a wide variety of players in the EV Ecosystem like EV end-users, businesses, real estate operators, government entities, and many more. Our comprehensive ecosystem has a range of products and services aimed at enabling EV adoption, including our vast charging network, our Open EV Charging Platform partnership opportunity, and an operating system built to make EVs smarter.

Our numbers speak for themselves. We have 30,000+ charging points across 11,000+ cities in India, and 20,000+ OS-integrated vehicles on the road. Our network has dispensed 1,000MWh+ of energy, and equipped 150,000+ users with smart, safe, and simple engineered devices that cater to EV charging needs. In addition to fulfilling emerging EV demands, we are actively working towards positioning ourselves as a global player in the EV charging infrastructure and OS space. We are proud to provide end-to-end systems capable of supporting every aspect of the e-mobility experience worldwide.
